

Quick Delivery Service Stocking Programme

 **COOPER** Crouse-Hinds

Jan. 2011

Quick Delivery Service

**Do you need a specific product quickly?
Our express delivery service is the perfect solution**

Our Quick Delivery Service helps you to react flexibly.

In addition to our usual quality, we now offer a quick delivery service for a range of products. This means that even if you have tight deadlines, everything can still be dealt with smoothly.

Enhancing safety and productivity – customer service makes Cooper Crouse-Hinds GmbH a trusted partner for our customers. High-quality products and professional advice are only a part of our comprehensive service. Our efficient logistics chain ensures the delivery of our equipment:

- promptly
- reliably
- safely

We deliver electrical devices – lighting, switchgear, connectivity solutions - directly to where you need them.

We have included the most important product groups in our Quick Delivery Service program.

An overview of our Quick Delivery Service:

If your order is received in our customer service center before 12.00 midday, we ensure that the goods are dispatched within three working days*, without any extra charge. This special service is available for the following products.

*This service is available for reasonable quantities.

- Stocking Programme

Enhancing Safety & Productivity

We offer reliable service and know-how.

Is electrical explosion protection an important part of your offering or operation, but not your core business? Then you need a competent partner you can rely on in this area.

In addition to product documentation and certificates you require, we also offer comprehensive service and application engineering support.

We take into account the special features of your requirements and offer to you tailor-made solutions with our standard products or with specially configured solutions. Our sales engineers and technicians in our customer service center give you professional, comprehensive and personalized advice when selecting the right devices. With us, you have a personal contact person who, in consultation with our expert teams in development, project planning, production and product management, develops the best solution for you and your operation.

In addition to our Quick Delivery Service, we also offer our customers the opportunity to access information on the status of the order processing, delivery times, logistics etc. at any time, so that you can react flexibly to changes in your business.

We can also serve you on-site, advise you on installation, carry out inspections and approvals and offer training courses. This means that our products are always deployed correctly and no problems can be expected.

And it goes without saying that after the project is complete, you will be able to take advantage of our after-sales service. Whether you wish to re-order, ask any questions you may have or make a complaint, we are always on hand to help.

Your professional partner for explosion protection:

In combination with Cooper Industries, we are the leading producer of explosion protection electrical equipment worldwide. Our brand CEAG stands for innovation you can trust in harsh & hazardous environments. Our business lines encompass lighting, switchgear and connectivity as well as tailor-made engineering solutions.
