

SOUNDERS – Up to 117dB(A) for Harsh Industrial & Marine Environments DB15 Range

IP66/67 Weatherproof
Corrosion Free All GRP

Introduction

This range of sounders have been specially designed for use in demanding industrial and marine environments where a robust construction and high ingress protection rating is required.

The body is manufactured completely from a UV stable glass reinforced polyester which is also highly flame retardant and impact resistant. Stainless steel screws are incorporated thus ensuring a corrosion free product.

MEDC can also provide a range of sounders suitable for use in potentially explosive atmospheres.
